ADVANCE DIRECTIVE

An Advance Directive (also known as a “Living Will”) is a document that you prepare in case you become unable to make decisions for yourself due to a medical condition. Its purpose is to very clearly state how you want your doctors to proceed with important, and sometimes difficult, decisions about how much lifesaving effort to exert.

California law allows you to choose another person to make healthcare decisions for you if for any reason you are unable to speak for yourself. This person will have legal authority to make decisions about your medical care if you are unconscious or otherwise unable to make decisions for yourself. In the “Individual Health Care Instruction” section you can indicate your wishes. Your agent must follow these instructions and honor any other wishes you have made known.

It is important to remember that the person you appoint as your agent has no authority to make decisions for you until you are unable to make those decisions yourself. It is not necessary to appoint an agent in order to complete an Advance Directive.

Any California resident who is at least 18 years old, of sound mind and acting of his/her own free will can complete a valid Advance Directive. A lawyer is not needed for a standard printed Advance Directive form to be legally valid. The form must be properly signed, dated and either notarized or witnessed by two qualified individuals.

An Advance Directive is valid for an indefinite period of time, unless otherwise stated on the document. Also, you can revoke or change the document at any time.

For an Advance Directive form, additional information and assistance, please contact the social services department at (619) 229-4621, or download one from the “Patient & Visitor Info” section of our Web site (www.alvaradohospital.com).
VOLUNTEER PROGRAM

We are extraordinarily proud of our volunteer program and of the more than 400 individuals who have dedicated so much to helping patients and their families. Alvarado Hospital welcomes the support of volunteers who provide their valuable gifts of time and ability. Alvarado provides many personal services and there are many opportunities to help us provide personalized attention to our patients and guests. If you are interested in volunteering at Alvarado Hospital, please call (619) 229-4619.

EMPLOYEE RECOGNITION

Frequently patients and guests are very appreciative of the care and attention our employees provide. Rather than gifts, Alvarado Hospital has set up an employee recognition program that is open to patients and guests. Called “Essentials of Excellence,” this program recognizes acts of outstanding patient service. Employees will receive special recognition and are eligible for awards. If you are interested in submitting an Essentials of Excellence form, please contact a member of our nursing staff or the nursing supervisor.
