CONSENT FOR VACCINATION

- I, the undersigned, have been provided a copy of the Vaccine Fact Sheet that discusses the risks and benefits of the COVID-19 vaccine. I understand the benefits and risks, have been given opportunity to ask questions with answers to my satisfaction and consent to administration of the vaccine.
- I understand that the Pfizer and Moderna COVID-19 vaccines require two (2) doses to confer immunity and if I do not complete the full series then I will not receive the full benefit of the vaccine. I understand that a second dose is subject to vaccine supply from the manufacturer.
- As with any vaccine, there is no certainty that I will become immune or that I will not experience any adverse side effects from the vaccine. I voluntarily assume full responsibility for any events that may result due to vaccination.
- I understand that I should remain in the vaccine administration area for 15 minutes after the vaccination to be monitored for any potential adverse reactions. I understand that I should report any adverse effects to both my provider and vaccine administrator.
- I understand that my employer or vaccine administrator is not responsible for my medical care and therefore I must discuss any medical concerns or care needs with my healthcare provider. I understand that if I experience any serious adverse reactions, I should call 911 or go to the nearest hospital. If I experience any adverse effects or have medical concerns, I should contact my healthcare provider. Even after immunization is complete, I will continue to follow all COVID-19 safety guidelines as required by my employer or recommended by the CDC and state/local health authorities.
